

ABDUR RAHMAN

Aspiring Full-Stack Developer | React & MERN Stack

Kattankudy, Sri Lanka | +94 77 242 5826 | rahmannoon12@email.com
linkedin.com/in/the-abdur-mern-stack | github.com/AbuDeveloperPassio

CAREER OBJECTIVE

Aspiring Full Stack Web Developer, trained in MERN Stack development. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS and Git. Experienced in building responsive and interactive web applications through hands-on projects.

TECHNICAL SKILLS

Programming Languages:	JavaScript, HTML5, CSS3, Python
Frontend:	React.js, Tailwind CSS
Backend:	Node.js, Express.js
Database:	MongoDB
Authentication & Payments:	Authentication, payment integration
Tools & Deployment:	Git, GitHub, Figma, Firebase

PROJECTS

Weather Station — Real-Time Weather Application

Tech Stack: React.js, Vite, Tailwind CSS 4, Axios, OpenWeatherMap API

- Built a responsive React weather application with real-time city-based weather data using OpenWeatherMap API.
- Implemented Axios-based API integration to display temperature, humidity, wind speed, pressure, and feels-like temperature.
- Added responsive Tailwind CSS UI with comprehensive error handling for loading, empty, invalid-city, and network-error states.

Flower — E-Commerce Frontend Application

Tech Stack: React.js, Vite, Tailwind CSS, Axios, React Router, Lucide React

- Built a responsive flower e-commerce frontend using React.js with reusable components and modern Tailwind CSS interface.
- Implemented multi-page navigation and product-focused user flows using React Router with Axios integration for API-based data handling.
- Developed responsive, user-friendly interface with reusable UI elements and optimized the project using Vite for fast development and production build workflow.

Game Library — Gaming Discovery Web Application

Tech Stack: React.js, Vite, Tailwind CSS, JavaScript

- Built a responsive game browsing interface using React.js, Vite, and Tailwind CSS with modern dark-mode design.
- Developed reusable components for navigation, genre filtering, platform/order filters, game cards, and responsive game grids.
- Implemented interactive game discovery features including search, category filtering, platform selection, game ratings, and like interactions.

MERN CRUD Management System — Full-Stack Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Axios, Vite, CSS

- Built a full-stack MERN application implementing CRUD operations for users, profiles, posts, and courses.
- Integrated a React frontend with REST APIs using Axios, supporting user management, profile relationships, post comments, and course enrollment.
- Implemented and handled 1:1, 1:M, and M:N data relationships between users, profiles, posts, comments, courses, and enrollments.
- Developed responsive interface using CSS variables and responsive layouts; configured Vite for development and production builds.

TRAINING & CERTIFICATIONS

MERN Stack Development — 6-Month Course

Marazin Academy | Completed 2024

- Completed hands-on training in MongoDB, Express.js, React.js, and Node.js
- Built real-world web applications during the course
- Gained practical experience in frontend and backend development, REST APIs, databases, and responsive UI development

EDUCATION

NVQ Level 4 — Information Communication Technology (IT Technician) | VTA | Completed

GCE O/L Candidate | 2023 Batch

TOOLS & TECHNOLOGIES

Version Control:	Git, GitHub
Deployment:	Firebase
Development Tools:	Figma
Package Managers:	npm
Build Tools:	Vite
Testing & API Tools:	Postman, Axios

KEY STRENGTHS

- Self-motivated learner with strong problem-solving skills
- Client-focused approach with attention to detail and timely delivery
- Adaptable team player comfortable working independently or collaboratively
- Passionate about staying current with modern web development practices
- Strong foundation in both frontend and backend development
- Experience translating design requirements into functional applications
